

HPA Count of Histologically Scored Proteins per Cell Type

N = 137 ; 100 bins

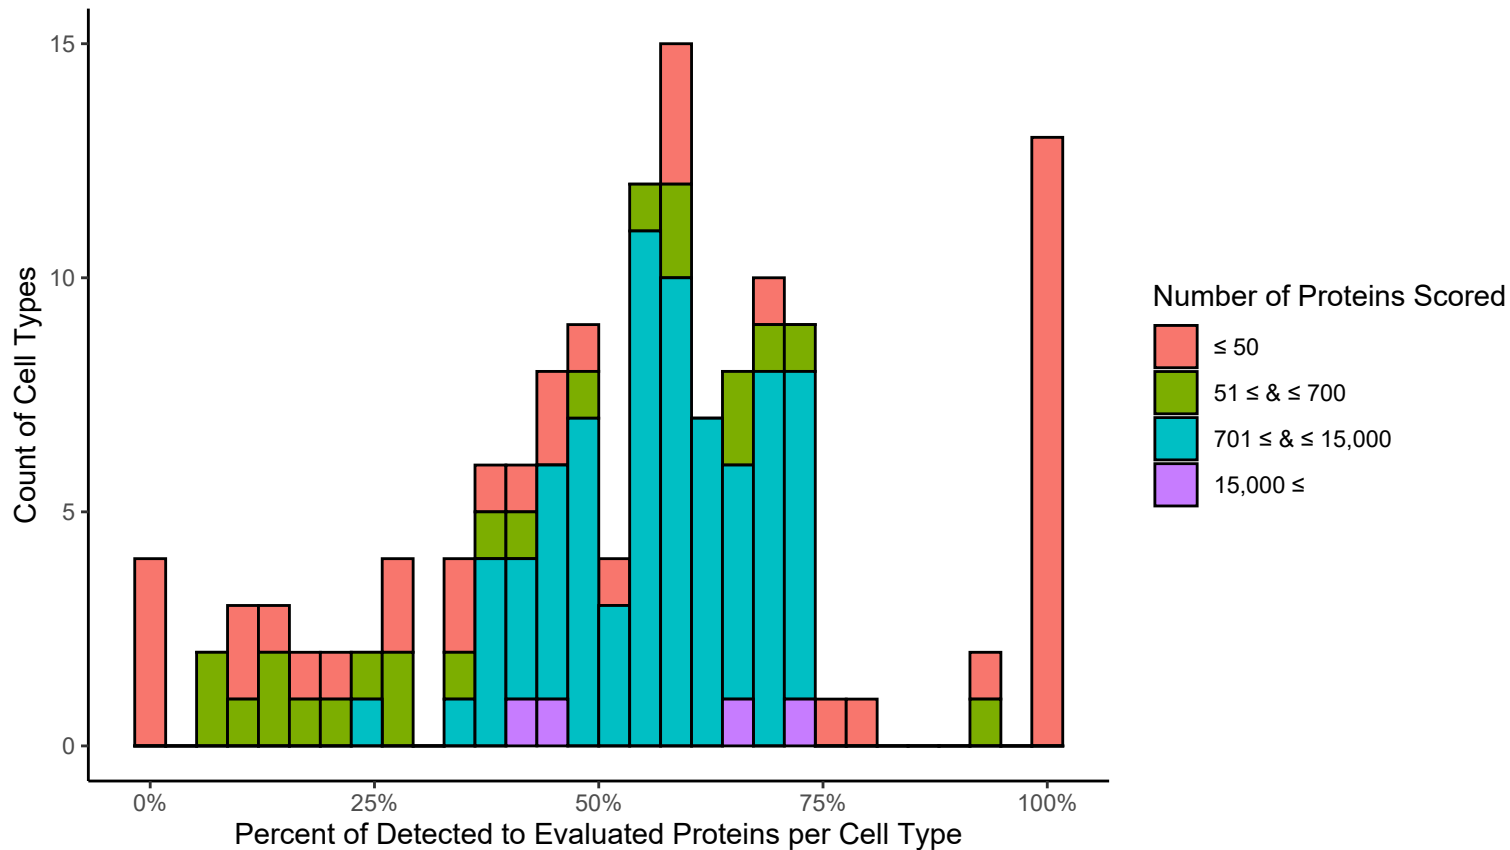

HPA Detected Proteins

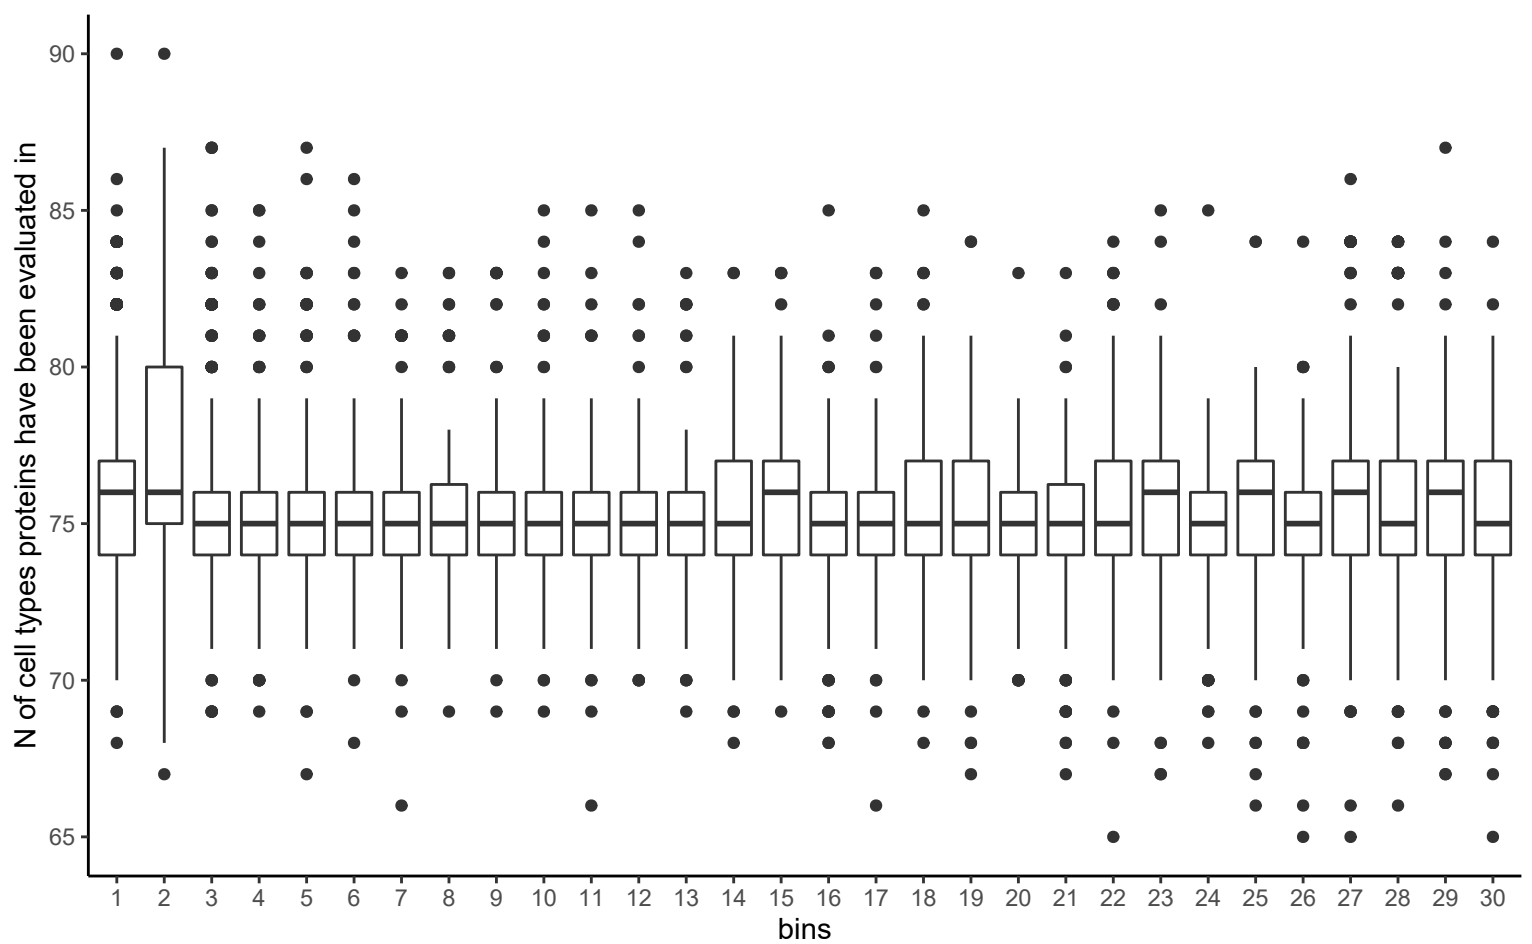

N = 137 ; bins = 50

HPA Detected/Histologically Scored Proteins

N = 137 ; bins = 30

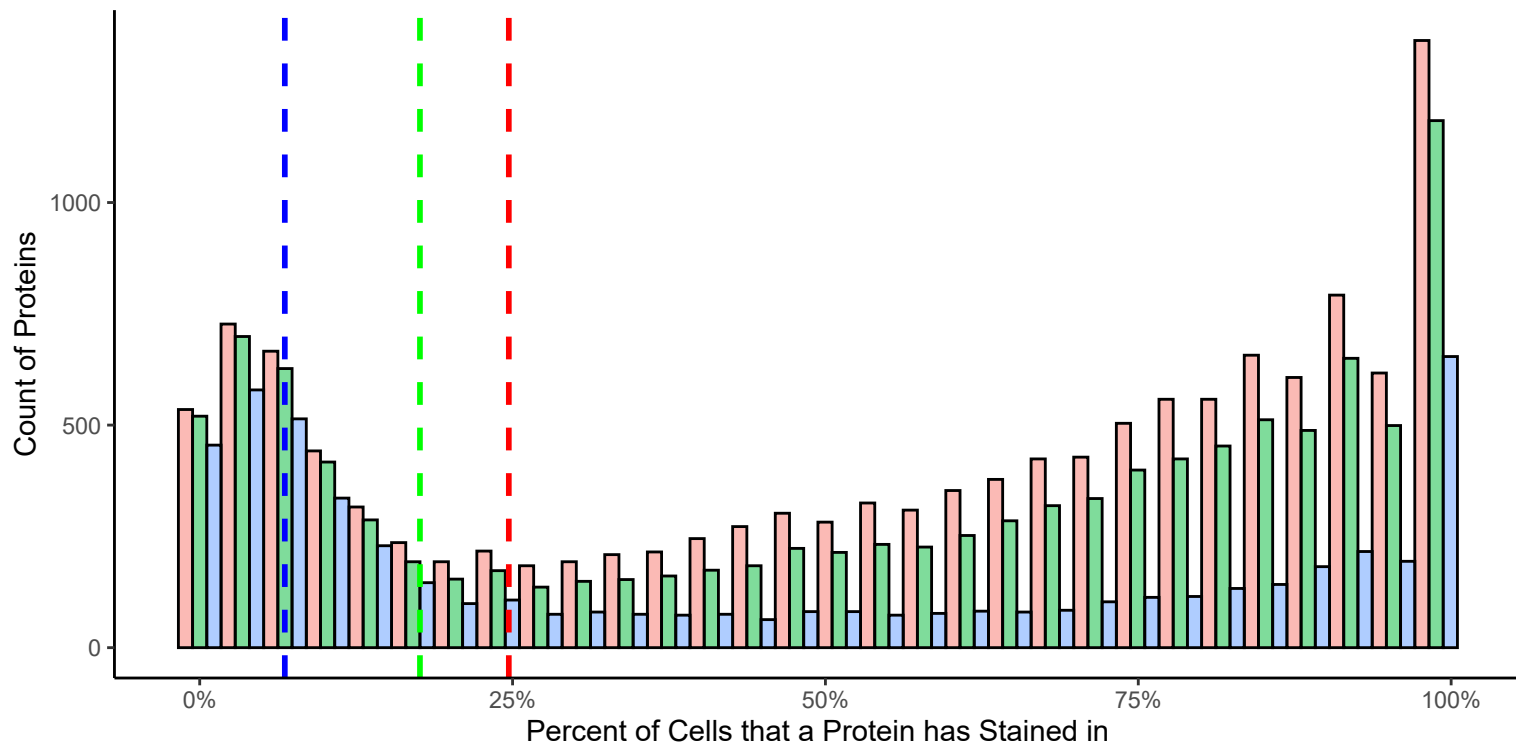

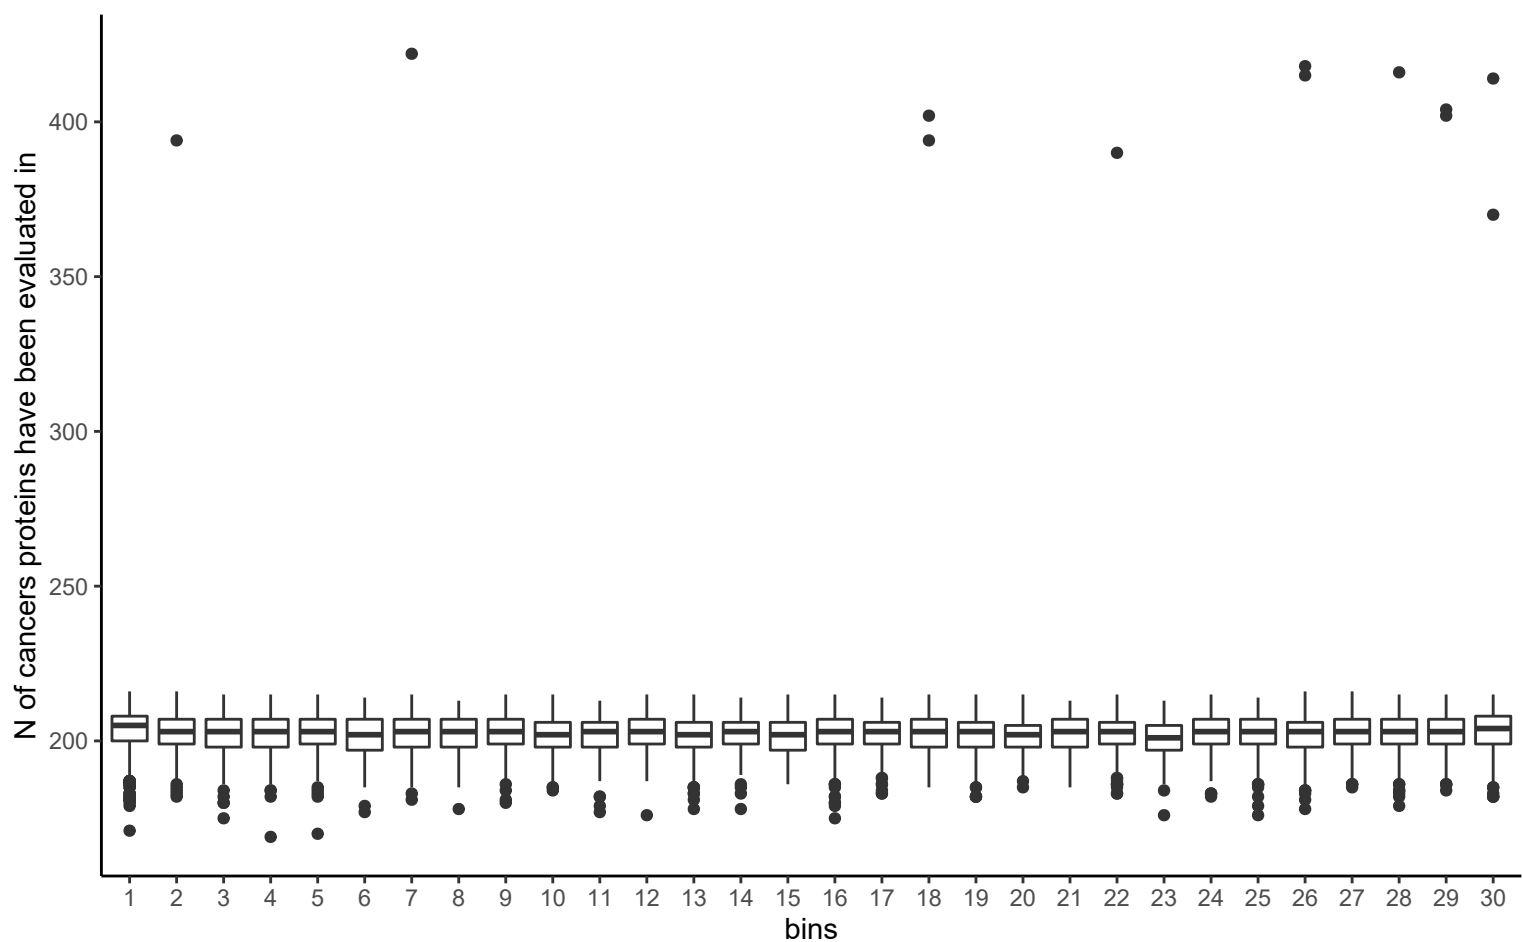

HPA Ratio of Protein Staining to Protein Histological Scoring

Lines represent 1st quartile for each distribution ; bins = 30

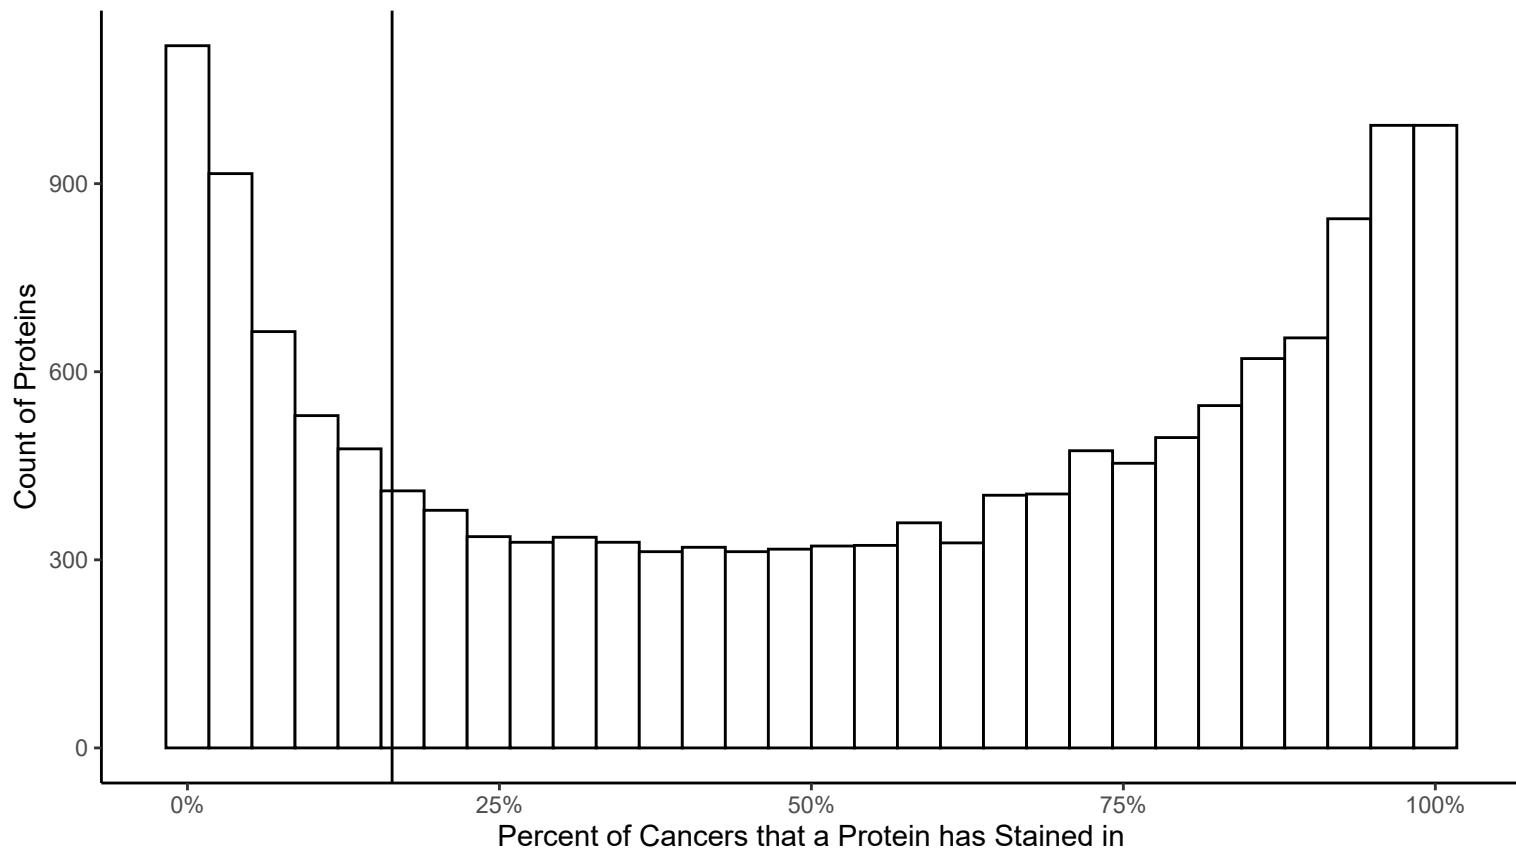

Scoring Quality Stringency ■ Low ■ Normal ■ High

HPA Cancer Ratio of Protein Staining to Protein Histological Scoring

Line represents 1st quartile the distribution ; bins = 30

PanglaoDB Markers per Cell Type

N = 142 ; bins = 30
